Before you begin!

PRINTING

Please print your pattern at 100%, DO NOT SCALE to fit paper. Before printing pattern, print out this page and measure the test square. The square should measure 10 x 10 cms.

PRINTING TEST

Measure this square exactly to ensure your pattern is printed at the correct scale. The square should measure 10 x 10 cms.
How To Use This Pattern

The full size pattern has been made into tiled sections and is numbered 1 to 15. Each section will have a border which can be cut off on one side only, enabling you to have an underlap when you tape the sections together. There are also arrows with information on matching sections. We recommend sticking your pages together to create rows first, then attaching your rows.
